

## FLORAL PARADE THIS AFTERNOON

One of Prettiest Pageants Seen  
In This City Starts at  
4 p. m.

### WITH THOUSAND CHILDREN

Clad in White and Carrying Hoops and  
Garlands of Flowers—Flats and  
Some Features.

Final preparations for the big floral parade to take place this afternoon, have been completed, each ecclesiastical ward in the city will be represented by one or more floats, suitably decorated with flowers, and it is expected that somewhere in the neighborhood of 1,000 children, in addition to several hundred adults, will be in the procession.

The parade will form at the Odeon hall, corner of North Temple and Main streets, promptly at 4 p. m. Maj. Richard W. Young will be marshal of the day, and he has given out the following names of gentlemen who will act as his aids: Charles S. Martin, B. F. Grant, Hugh J. Cannon, Judge Elias A. Smith, Judge Samuel W. Stewart, George G. Morris, L. N. Haddock and Malcolm McAllister. In addition to these aids there will be division marshals as follows: Liberty stake, Edward M. Ashton; Pioneer stake, Edward H. Bardley; children's division, under Prof. F. M. Agostini and Joseph J. Cannon; Salt Lake stake, under Alex. A. Carr; Ensign stake, under George J. Cannon, and the other organizations under John Q. Critchlow.

### LINE OF MARCH.

The procession will be headed by the officers of the Mutual Improvement associations, in carriages, suitably decorated. The line of march will be as follows: Commencing at North Temple and Main, down the west side of Main street to Fourth South, countermarching and returning north on the east side of Main to First South, thence east on First South to State street, thence north on State to South Temple, west on South Temple to the monument, thence north to place of beginning where it will disband.

### FLOWER PARADE.

The parade promises to be one of the prettiest pageants seen in this city, the idea being to make it as artistic as possible in appearance, and to accomplish this, all efforts at giving it a martial appearance have met with discouragement from the committee of ladies and gentlemen having the matter in charge. The children taking part will be clad in white and will carry hoops and garlands of flowers.

The formation will be as follows: Liberty stake will form on the South side of North Temple street, extending west from Main street. Pioneer stake on the west side of North Temple, extending south from North Temple street. The children will congregate at Odeon hall.

Salt Lake stake will form on the north side of North Temple street, extending west from Main street. Ensign stake will form on North Temple, extending east from West Temple. The general officers of the Mutual will form on the west side of Main street, extending north from North Temple street, and the other organizations taking part will form on the east side of Main street, extending north from North Temple street.

### OTHER CARNIVAL EVENTS.

The other events of the fall carnival and melange will be held at the Odeon hall, opening tonight with the "pink domino" or junior ball. The "Gaiety" contest, which scored such a hit at the theater last week will be one of the features of the evening, also the "Tyrolean dancers," a fancy dance by Miss Jones, and "Love's Young Dream."

During each evening performance, Miss Luer Van Cott, dean of the domestic science department of the University of Utah, assisted by a corps of competent ladies, will serve supper to all who attend, for which no extra charge will be made.

### THEY TAKE THE KINKS OUT.

"I have used Dr. King's New Life Pills for many years, with increasing satisfaction. They take the kinks out of stomach, liver and bowels, without fuss or friction," says N. E. Brown, Portland, Vt. Guaranteed satisfactory at Z. C. M. I. Drug Dept., 112-114 south Main street, 25c.

### SIDE TRIPS FOR DELEGATES.

Members of Irrigation Congress Will be Offered Opportunities for Travel.

General Agent C. F. Warren of the Santa Fe is in receipt of special folders from the passenger department, detailing many side trip excursions for the delegates to the Irrigation Congress at Albuquerque. Mr. Warren will personally conduct some of these excursions. Chief among these will be an excursion to Mexico City, for which a rate of \$25 has been announced. Following is a list of excursions for which arrangements have been made:

To Las Cruces, N. M., in Mesilla valley, to view the Eagle irrigation project, consisting of the Elephant Butte and Leasburg dams.

To Pecos valley, where results of irrigation under the Carlsbad and Hondo projects and the artesian wells are to be seen.

To Las Vegas, Springer and Raton, N. M., to observe dry farming and local irrigation on the mesa farming lands of northern New Mexico.

To Santa Fe, N. M., the capital of the territory, from where side trips may be made to the ancient cliff dwellings.

To Zuni, N. M. (rail and stage), to inspect the great steam boiler, built by the United States Indian department for the Zuni Indians.

To Phoenix, Ariz., to Salt River valley, near where the Roosevelt dam is being built, stopping en route at Prescott, in the mining country.

To the Grand canyon of Arizona, stopping at the petrified forest on the way. This trip will cost \$21 from Albuquerque.

Residents and the managers of the irrigation congress are working hard to insure the success of the congress, which is to be held Sept. 29 to Oct. 2. In this they are having the co-operation of the railroads and particularly the Santa Fe. On the same dates the International Exposition at Albuquerque will be opened.

The fruits of the soil, grown in the desert by the touch of water, will be a practical lesson of the value and results of irrigation. It is believed, too, that the exposition will attract the attention of visitors from the eastern states and from South Africa, Asia, and South Europe, more than will the congress.

The managers are sparing no pains to make of it the biggest agricultural and livestock show in the mountain west east of the San Joaquin valley. They intend to give prominent place to the value of irrigation in the form of orchard and field crops, forage, cotton, and even thoroughbred livestock, grown in the desert by artificial irrigation. Foreign ambassadors and other diplomats stationed at Washington, who will attend the congress and the exposition will go by way of Chicago, where their cars will be attached to the Santa Fe line, which will be made into a special train. They will be the guests of the department of state on the trip, and on leaving Albuquerque will visit the Grand canyon and other attractions of the southwest. Nothing will be too good for them, and whatever there is in the mountain west will be shown to them by Secy. Root or his assistant, Secy. Bacon.

**CURED HAY FEVER AND SUMMER COLD.**  
A. J. Nussbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not bring relief. I took several medicine which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Kidney and Bladder Pills, and it quickly cured me. My wife has had the same success. For sale by F. J. Hill Drug Co., 'The Never Substitutors'."

**DUKE IS RECOVERING.**  
Ex-Policeman Who Took Morphine Discharged From Hospital.  
John Duke, the ex-policeman, who attempted to commit suicide yesterday afternoon by taking morphine, is now pronounced out of danger. That the man is now out of danger is due to the fact that he took too much of the poison and the prompt actions of Dr. Kerr in sending him to St. Mark's hospital, where he could receive proper treatment. A stomach pump was used upon Duke as soon as he arrived at the hospital in the ambulance, and after the poison had been extracted from him he was released and sent home. He is now entirely out of danger, and it is not feared that he will again attempt to take his own life.

**OF INTEREST TO MANY.**  
Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. No medicine can do more. For sale by F. J. Hill Drug Co., "The Never Substitutors."

**Saltair Bathing Trains Daily.**  
**MRS. JANE MILLER AGAIN.**  
Unfortunate Woman Arrested But Is Released by Chief Pitt.  
Because she was walking along the principal business streets with her hair hanging down her back in a tangled mass, her body unclean and her clothing practically in rags, Mrs. J. J. Miller, one of the most unfortunate women of the town, was arrested last night by Patrolman George Harris, and locked up in the city jail. She was not charged with drunkenness or vagrancy, but was taken into custody to get her off the streets. This morning, by order of Chief Pitt, the woman was released and permitted to go to her home.

Mrs. Miller was one time a prosperous business woman and her friends were limited only to her circle of acquaintances, but business reverses, family troubles and an unfortunate love affair started her on the road to drink and she sank to the lowest depths. She is now in a wretched mental condition, suffering from disease and an outbreak. She has been arrested many times and has served terms in the jail. All efforts to save her have started in life have proved futile, but the authorities do not wish to put her in jail unless it is absolutely necessary.

**KNOCKED DOWN BY AUTO.**  
At the corner of Second South and Main streets last evening, Alma Watts, aged 70 years, was knocked down and run over by an automobile but fortunately escaped injury with the exception of a bruised leg.  
The aged man was on the corner when a large car drew up and stopped to permit a passenger to alight. As the car started, Watts walked directly in front of the machine. He was knocked to the ground and one wheel passed over his leg. He was picked up by a passerby and found that he had not been injured except a slight abrasion of the leg. The machine is owned by Mrs. Elizabeth Hegney and was driven by Mrs. E. H. Hegney. It is claimed that the accident was unavoidable and no arrests were made.

## Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts and right living generally.

To get its beneficial effects, always buy the genuine

Syrup of Figs and Elixir of Senna  
manufactured by the

## HAMMERS ECHO AT STATE FAIR

Exhibitors Are Getting Down to  
Work Early This Year  
For Once.

### IMPROVEMENTS IN ORDER.

Fifty New Stalls For Stock are Now  
Being Built—Fast Horses  
Arriving.

A visit to the state fair grounds demonstrates that exhibitors are getting down to work earlier this year with the result that several are now busy getting ready for the big show which opens on Oct. 5. Prof. Lewis A. Merrill, who has charge of the Agricultural college display this year, has three men at work in the horticultural building getting the space in shape, moving in show cases and building a scheme of artistic railings, posts and chains to keep back the surging throng.

Mr. Merrill states that the A. C. is going to have the best exhibit in its history this year. Aside from the dry farming features, fruits, manual training work and other incidentals, it is to have been secured for the showing of prize animals bred on the college farm.

Mrs. Ritter, who is supervisor of the art and educational departments generally forecasts a distinctly novel and interesting exhibition along the line comes the same story.

**NEW STALLS GOING UP.**  
In the meantime there is a small army of carpenters at work on the grounds making a number of changes and additions. Owing to the fact that the entries for draft horses are exceeding all expectations and the number of speedy performers in the Grand Prix is making things interesting for Supervisor Lester D. Freed, the order was given yesterday to erect 50 additional stalls. These stalls are to be located on the west side of the grounds, are to be of the latest approved pattern, are to be permanent at the fair.

Another improvement which will be welcomed by patrons of the horse races is the erection of a double-decked structure which will be given over to the band which heretofore has occupied seats in the grandstand, much to the discomfort of those seated in the immediate vicinity. Then a string of private boxes has been built extending along the entire front of the grandstand. These will be leased to patrons for the season, if so desired. Last, but not least, adequate exits from the grandstand have been provided for with the installation of a new set of stairs, so that the distressing crush in evidence on rush days will be obviated.

**STRONG ON DECORATIONS.**  
Preliminaries upon decorations are already under way. In place of the work being done under the direction of the various supervisors are heretofore the contract has been let to a Chicago man who has a carload of bunting, flags and pennants which he proposes to fling to the breeze. As he handled the work for the recent Jamestown exposition, the management feels that it will get something out of the usual line. By way of a starter there are to be strings of streamers attached to poles across the street and converging to a center will lead into the grounds for a distance of 200 feet, giving novel and striking effects.

Horses are continuing to arrive daily and there are now 52 animals on the grounds. Seven splendid draft and coach stallions are among the recent arrivals having been shipped here by an Illinois firm of breeders and dealers.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney and Bladder Pills will positively cure all forms of kidney and bladder disease. It strengthens the whole system. For sale by F. J. Hill Drug Co., "The Never Substitutors."

**Salt Lake Photo and Supply Co.**  
Kodaks, Finishing, framing, 142 Main St.

**CONDUITS NEARLY READY.**  
The placing of the new conduit cables of the Western Union underground has practically completed, but making the new connections is slow work, requiring two more weeks before "the cutover" can be made in the main office. The lines on South Temple street west of the monument will be transferred to west Third South street, where the conduit system ends at First West street. From this latter point westward the number of cross-arms on the street poles will be increased to accommodate the increase of service there. As soon as the connections are made, the street poles along the conduit line will come down. The Utah Light & Railway company has cut down three blocks or poles on Second South street, making a great improvement there.

**DR. SHORT'S STATEMENT.**  
Rev. F. B. Short of the First Methodist church denies emphatically that he made the statements credited to him in the Cincinnati dispatches, and says: "The statement reaching this city that I had, in Cincinnati, O., compared Salt Lake City to Sodom and Gomorrah, had declared it worse than Atlantic City, N. J., and predicted that in five years it would be destroyed, is absolutely false."

"On the other hand, I mentioned the beauty, the attractiveness, and the good government of the city, it being much better than many other large cities in our country."

"No man ever heard me, anywhere, speak unkindly of our city. Such a thing would be impossible, because I would be contrary to my belief, the facts in the case, and my method of action."

"The manuscript which I used while delivering the address, I have in my possession and every word therein is most commendatory of our beautiful and growing city."

## NEW ORDINANCE FOR TELEPHONES

Stewart Asked For Immediate  
Action, But Council Took A  
Different View.

### MORE DEPARTMENT HORSES.

Revised Regulations Respecting The  
Duties of Drivers—Vehicles Must  
Carry Lights.

An entirely new ordinance relating to telephone license was presented to the city council last night, its sponsor being Councilman Stewart. It provides that each telephone company operating here give 50 free phones to the municipality, pay a license of \$1 per annum and instruments renting at \$10 a year or more and 50 cents under that amount.

Mr. Stewart endeavored to have his measure passed without delay, but a certain streets, at intervals, for speed contests, etc., when the limit of travel may be exceeded. C. T. Vall was granted permission to exceed the limit in his car before the petition is taken up.

Upon motion of Mr. Hall, a committee was appointed to inspect cement sidewalks, with a view of seeing whether they are up to the standard. Mr. Hall also proposed that the city employ a water main to be extended to Poplar Grove. It was found that certain streets had not been dedicated to the city, and that pipes for water mains had been laid over private property. The petition went over for further investigation.

**WANTED TO BE JAILED**  
After telephoning to the police that a man was trying to kill her at 66 east Second South street, Lulu Woods, a colored woman thought to be a mad woman, was taken to the police headquarters and asked to be locked up for the night. It was shortly after 9 o'clock that the telephone message was received. Lieutenant Shannon and Jaller Ripley hurried to the scene of the alleged killing but found no trouble in the neighborhood. The colored woman was taken to the station and the mystery was solved.

**NURSES OPPOSE DIRECTORY.**  
There was a well attended meeting yesterday afternoon, of local graduate nurses at the Brigham Street pharmacy to consider the proposition of organizing a Graduate Nurses' association. The meeting was opposed to the ward plan proposed by the Utah Medical association as it would place on the list many who have not been trained in the work, and yet who have been doing nursing in Salt Lake. But the idea of an association was favorably considered, and the following committee on constitution and by-laws was appointed: Mrs. Bebe, Miss Martha Bullock, Miss Elsie McCook and Miss Armsby, who will report at a called meeting.

A committee composed of Miss Rosa Koros, Mrs. McArthur and Miss Mary Bebe was appointed to report the decision of the Salt Lake County Medical association.

**AMUSEMENTS.**  
Theater—The sort of auditors that a slap stick, rattle-tongued musical show would appeal to, were out in force last night; which means that the attendance was greater in the upper regions below stairs than the turn-out was sparse. The show which sails under the name of "Hip Hip Hooray" is an imitation of Weber and Fields, but without the clever specialties that make the originals famous. The two imitators of the New York comedians, Messrs. Rice and Cady, kept the audience in such an uproar that it might have been suggested that their special school of acting was washed away at the time of the flood. The chorus is of the industrious, dance and kick class, in which the last of the things required, indeed, the only glimmer of vocal gifts noticeable during the evening was seen in the work of Miss Maude Leroy, who has a good voice. The bill will run tonight and tomorrow night and afternoon.

**Orpheum**—There have been few better balanced bills at the Orpheum than that which holds the bandstand this week. From the first number until the kingly Orpheum is reached, it is entertaining. Willard Wells is back at the head of the orchestra and the State street house of Orpheum has again "caught its stride" for the long season.

The bill opens with Coyne and Thelen, artistic hand balancers and acrobats,

whose turn is marked by clean cut work and graceful exhibitions of feats of strength. Lew Hawkins, of minstrel fame, follows and puts all in a good humor with his political song and some old gags in new dress. May and Flora Hengler, who have not been seen here since the initial bill three years ago, have a dainty dancing act, which, barring one wait for changes, is up to the circuit standard. After a selection from "Madam Butterfly," by the orchestra, the cream of the bill is served up for monologue. Ethel and Albert Green are back again with "Tom and Jerry," a playlet with a night out as its theme and a bit of heart interest at the close. With one exception of Katie Barry, the miniature English comedienne of "Chinese Honeymoon" fame, the house settled back for a good, comfortable laugh. "Have You Seen My Library Brandy?" in the heat of the night, the comedian was distinctly different from some imitations seen on the same stage. The accompaniment in the upper box "Ted" Katie at stated intervals, and kept the hall rolling to the extent of five reels.

The good things this week concentrate in the headline, "A Night On a Houseboat," which is well staged and carries also capable young people, every one of them in the sketch for more than ornamental purposes. O'Malley Jennings as the young Englishman, is a character comedian and a character actor. Ethel and Albert Shaw, daughters of the well known whistler, too, are worthy of an act of their own. In addition there are the dancing girl, the strolling boy, the college athlete, the picture girl and the chaperone, all of whom sing and dance amid stage settings that must call for a big expense baggage charge every time the act boards the train.

**Grand**—"Under Two Flags." This week's bill at the Grand, was witnessed last evening by an audience not large, but thoroughly appreciative. The play is a dramatization of the best of the many productions of Ouida, and is an intensely interesting story of French life in Algeria. The principal male character is a young Englishman, who, suffering from the wrongdoings of another, is found fighting under a foreign flag. His story is one of a leading role, and though valorous as his deeds, he is not the leading soldier. Both distinctions fall to a girl, a waif of the army
